PROJECT NEWS

PROJECT

Cabana in Putney, Sydney by Peter from Allscape Landscaping

PRODUCT

DESCRIPTION OF JOB

The clients wanted to 'jazz' up their back yard and extend their entertaining area flowing from inside to outside. They wanted to use this area all year round without being effected by the rain and heat. Therefore, they opted for '**Insulspan**' Insulated Roofing Panels, making it cooler in summer and warmer in winter (*unlike a single sheet of corrugated roofing which can make it unbearably hot in summer*). They are thrilled with the result and so are we.
